- All other procedures receive a 10% credit towards the usual fee.

### **A Note about our fees:**

Most dental insurance plans attempt to lower fees as far as possible with no consideration for quality.

As **The Common Law of Business** states, *“There is hardly anything in the world that someone cannot make a little worse and sell a little cheaper, and the people who consider price alone are that person's lawful prey. It's unwise to pay too much, but it's worse to pay too little.”*

Mount Pleasant Dental Care does not participate in low fixed fee plans because at their discount fees we cannot provide the level of care we believe to be both ethical and what our patients deserve. **We are careful to set our fees based on the time needed to provide meticulous care and the costs of overhead.**

While many plans provide lower fees, we believe in the value of quality. Restorations completed at Mount Pleasant Dental Care routinely last 3 to 5 times longer than insurance company averages. Our initial fees may be slightly higher than discount plans, but over time, our patients should invest less in their dental care and receive better dental health.

In addition to the quality of the dental care we provide, Mount Pleasant Dental Care is committed to excellence in service, comfort, and compassion. These intangibles cost nothing extra and are delivered by the great attitude of our caring team.
